How Companies Quantify Financial Exposure from SoD Access to Eliminate Manual Controls and Save Time

[Listen on Demand!](#)

Learn how Fortune 500 companies select, design, and configure automated transaction monitoring controls to provide mitigating coverage of SoD access.

In this session, we cover how to:

- Determine which risks to prioritize for remediation or mitigation
- Drive accountability to the business with tangible examples and evidence
- Develop a process to review reported violations in a centralized repository of SoD mitigation activities.
- Create a strong business case including automation implementation considerations.

Streamlining Access Governance with Pathlock and Microsoft Entra Identity Governance

[Listen on Demand!](#)

Operating risk within business applications is increasing at a rapid rate with increased threats adding on all the time with

Operating risk within business applications is increasing at a rapid rate with increased threats adding on all the time with digital automation. Hacker sophistication is now beyond the initial access perimeter, going into core applications holding high value data.

In this session, experts from **Protiviti**, **Microsoft**, and **Pathlock** break down how this integration has made them better together in working to implement agile access controls at scale, at consumable economic cost to help your business.

SURVEY

The Innovation vs. Technical Debt Tug of War

Protiviti set out to understand how organizations are tackling their current and future technology needs – specifically, how they are pursuing innovation initiatives that will

fuel long-term value while also addressing the burden of managing their organization’s technical debt. For this global survey we polled [more than 1,000 CIOs, CTOs, CISOs and other technology executives and leaders.](#)

Analysis of this research exposes a number of trends and themes that should be of great interest to technology leaders seeking to help their organizations achieve competitive advantage and grow their capabilities and offerings.
