## BLOG

### [Migrating SAP Workloads to AWS: Which Option to Choose?](#)

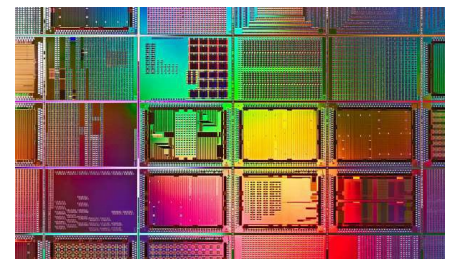

The phenomenon of cloud computing has slowly ingratiated us for many years now. Many customers have already moved entire workloads to the cloud and many vendors are now offering their products exclusively as a software as a service (SaaS) cloud platform. SAP customers still contemplating moving to the cloud will want to read this introduction to what is required when moving SAP workloads to the Amazon Web Services (AWS) Cloud platform.

### [Adopting Automation Elevates SAP Control Testing](#)

Robotic Process Automation, when deployed correctly, can significantly expedite what would otherwise be heavily time-consuming tasks. And that is the case at Protiviti where our Business Applications Team and Enabling Technology team joined forces to reduce the amount of time to complete SAP Basis testing by 95%. These advanced automations or accelerators can be utilized for IT Sarbanes-Oxley testing within SAP S/4HANA and SAP BW HANA environments.
