Planning for an SAP S/4HANA Upgrade: Security and Controls

With SAP extending its support for SAP ECC through the end of 2027, many companies are now starting their S/4HANA upgrade projects in a race against the deadline.

Given this situation, it is timely to revisit a previous blog, as the considerations discussed are still relevant to those on the S/4HANA journey, including companies participating in the RISE with SAP program.

Additionally, there are new areas to explore as part of the S/4HANA journey and overall SAP roadmap. Addressing these areas will help strengthen the overall control environment.

WEBINAR

SAP Data and Analytics Discovery Days

Hands-On Workshop — Hosted by Protiviti

Protiviti, together with SAP, invite you to join this two-hour virtual hands-on workshop.

In this session, you will learn how to:

- Apply best practices to load enterprise master and transactional data from Datasphere to SAC Planning models to streamline financial reporting

- Use SAC Web and Excel interfaces to create standard enterprise financial reporting packages and content from Datasphere-sourced data (GAAP and non-GAAP P&L, balance sheet, cash Flow, currency conversion and impact, variance bridge, ROIC, EPS, etc.)

- Apply best practices for building and using custom-calculated measures and account dimension to streamline standard SAC financial reporting.
