

The Protiviti Story

Protiviti (www.protiviti.com) is a global consulting firm that helps companies solve problems in finance, technology, operations, governance, risk and internal audit, and has served more than 60 percent of *Fortune* 1000® and 35 percent of *Fortune* Global 500® companies. Protiviti and our independently owned Member Firms serve clients through a network of more than 70 locations in over 20 countries. We also work with smaller, growing companies, including those looking to go public, as well as with government agencies.

Protiviti was formed in May 2002, when Robert Half hired approximately 700 experienced and highly qualified partners and professionals formerly with Arthur Andersen LLP's U.S. internal audit and business risk consulting practices. These practices operated separately from Andersen's external audit and attestation services.

Ranked 57 on the 2016 *Fortune* 100 Best Companies to Work For® list, Protiviti is frequently recognized with industry and "Best Places to Work" accolades.

About Our Parent Company

Protiviti is a wholly owned subsidiary of Robert Half, a \$5 billion company (NYSE: RHI) and member of the S&P 500 index, with staffing and consulting operations in more than 400 locations worldwide. In 2016, Robert Half was once again named to *Fortune*® magazine's "World's Most Admired Companies" list. In addition, the company was named by *Ethisphere* magazine to its "2013 World's Most Ethical Companies®" list, and was recognized by Newsweek on its list of the greenest big companies in the United States (Oct. 22, 2012).

Protiviti Solutions and Our Market Position

We help our clients seize new opportunities for growth and profitability while protecting themselves from their risks. With our risk management and internal audit heritage, we have gained unique perspectives on the challenges faced by our clients. We use these perspectives not only to solve regulatory, risk and compliance problems, but also to help our clients become more effective and productive. We and our clients recognize that the information required for effective risk management also provides powerful insights about business that can drive enhanced performance.

The name Protiviti represents our values, including professionalism, integrity and independence. Unlike many consulting practices, Protiviti has no affiliation with an external audit firm, nor do we provide any external audit services. This affords us a key strategic advantage, as we can offer the resources, quality, capabilities and expertise of any large accounting firm without regulatory or market concerns regarding conflicts of interest.

Protiviti is recognized as a place where talented professionals can grow their careers in a challenging and rewarding environment. We attract, hire and develop diverse thinkers from recent graduates to experienced professionals to partner and advise our clients in various industry sectors on critical business problems in the following solution areas:

- Business Performance Improvement
- Data Management and Advanced Analytics
- Internal Audit and Financial Advisory
- IT Consulting
- Restructuring and Litigation
- Risk and Compliance
- Transaction Services

What Makes Us Different

In addition to our enviable position in the market, we offer a unique resource model. We draw on the deep knowledge of our process and industry experts in our risk and IT consulting and internal audit practices. The skills of our consultants match those of the divested consulting arms of the Big Four firms. We are also able to capitalize on Robert Half's network of more than 500,000 variable-cost professionals worldwide to supplement large projects as needed.

Thought Leadership for All

Protiviti produces insightful and practical research reports, webinars, white papers, case studies, podcasts and more. To access the firm's online library, please visit www.protiviti.com.
