

SAP S/4HANA Implementation Services

Effectively Execute this Mission Critical Initiative

Any large business transformation or technology migration project brings inherent demands that make successful execution a challenge. **A poorly executed project can result in:**

- Negative impacts to financial performance
- Loss of customers and goodwill
- Damage to brand
- Loss of talent

A well-planned and executed program greatly reduces these risks, improves overall project outcomes and achieves business case objectives.

Our implementation approach is geared to helping companies execute their business transformation goals while ensuring that the underlying systems are operational, secure and effective. We leverage an agile methodology by executing rapid sprints to ensure that the business stays engaged throughout and that transformation goals and objectives are monitored and assessed often.

Benefits of Protiviti's Approach:

FLEXIBLE AND ADAPTABLE MODEL THROUGHOUT YOUR JOURNEY

Protiviti understands that the move to SAP S/4HANA is a journey and not a destination. With our ability to tailor an approach that fits your needs, from greenfield implementation, to brownfield conversion or even ownership of key work streams, we can help you achieve your transformation goals and objectives.

UNIQUE ABILITY TO ACQUIRE TALENT

As a division of Robert Half, we have an unmatched ability to source unique talent to support both project requirements and backfills, so the best talent can support the program.

INCREASED IMPLEMENTATION RELIABILITY

We provide detailed planning, rigorous change control management, clear resource requirements and proven strategies for data migration, change management and testing for a successful implementation.

REDUCED ORGANIZATIONAL RISK

We enable your organization to develop an established governance structure, risk management and organizational change plans that are key to mitigating project risk and ensuring successful outcomes.

SAP S/4HANA Implementation Services

How Can Protiviti Help You Execute Your SAP S/4HANA Journey?
