The Nintex Platform

Nintex Promapp® Process Mapping & Management

Establish total visibility and control over your enterprise processes. Use visual process mapping software to encourage company-wide collaboration, increase accountability, and improve your processes—all with one easy-to-use platform.

Mobile Apps & Forms

Users can receive notifications from their mobile app, fill out and submit forms, review and approve documents, and keep business processes running efficiently—from anywhere, on any device.

Advanced Workflow

Leverage powerful and easy-to-use workflow automation software to streamline the processes that make up the core of your business. Ensure every task advances to the next stage of the process to make sure your enterprise runs more efficiently.

Nintex Foxtrot® RPA

Leverage trained bots to quickly and cost-effectively automate routine tasks without the use of code. Users are now equipped with a comprehensive, enterprise-grade process management and automation solution that streamlines processes.

DocGen®

Generate precise and accurate documents for sophisticated business functions like sales proposals, contracts or work orders. Pull data from multiple sources. Output data to a variety of endpoints. And know, above all, your document data is secure and compliant throughout the process.

Nintex Sign™ powered by Adobe Sign

Completing approval processes with an electronic signature allows businesses to move faster. You can create e-signature tasks within your automated workflows with just a few clicks. Automate simple to sophisticated processes using a reliable, enterprise-grade solution.

Process Intelligence

Explore your data and find actionable insights. Monitor workflow performance, discover data-driven trends, and transform your business processes with our integrated analytics tools.

Xtensions™ Framework

Nintex Connectors integrate your business apps (i.e.: Salesforce) within your automated workflows. Nintex Connectors cover the popular apps you use every day, and our Xtensions™ framework lets you build and customize your own connector.
