

## Microsoft Solutions

Protiviti helps clients maximize their technology investments by delivering solutions that provide real value to the business. Clients benefit from a cross-functional team with a unique blend of technical expertise and business acumen. Our award-winning team of Microsoft MVPs, creative designers, information architects and business analysts delivers business solutions, stunning designs and exceptional user experiences while also addressing regulatory, risk and compliance requirements. Protiviti's Microsoft Solutions include full services and support of Office 365, SharePoint, .NET and SQL Server Suite, Dynamics 365 and Azure.

### Portals & Collaboration

Protiviti's experts have a full breadth of experience planning, designing and implementing intranets, extranets and project team sites for organizations worldwide. Our team can assist your organization with your portal, document management and search strategies to ensure your organization is collaborating effectively across all business units and geographic locations. As organizations grow in size, their portal content grows in complexity, so the need to manage information internally becomes even more imperative.

# Business Solutions

## Business Process Automation

Our team can automate your business processes to improve productivity, increase sustainability, simplify the workplace and maximize compliance efforts, leveraging technology solutions and third-party tools.

## Business Intelligence & Dashboards

Our Business Intelligence experts can assist your organization in visually displaying data and providing stakeholders with insights into your organization's performance through dynamic dashboards.

## Content and Data Security

Data shows that 79% of organizations store sensitive data in their environment. We can assess your current security profile and implement a custom security plan to prevent your content and data from being compromised.

## Governance, Training & User Adoption

We can help you sustain your website investment by training your users and help implement an effective governance and user adoption plan that will maximize efficiency, increase teamwork and expand client collaboration and more.

## Custom Development

Protiviti architects and developers customize applications using proven frameworks leveraging the leading technology stacks. Our team has deep experience in external system integration and legacy systems migration into new applications.

## User Experience Design

Our designers and experience architects can make your site as attractive visually as it is feature-rich by improving your information architecture, site usability, interface design and mobile accessibility.

## Microsoft Applications
