# Protiviti Salesforce Solutions

Protiviti offers our clients a unique set of services and expertise – unlike any other Salesforce consultant in the market. Our end-to-end Salesforce solutions include strategy, assessment, migration, implementation, customization, security and on-going support.

## Planning & Implementation

- Comprehensive roadmaps, communication and change management plans
- Strategy and design
- Configuration, development and customization

## Application Development

- Digitize any business process
- Enhance employee efficiency
- Support business growth
- Drive innovation

## Migration

- Comprehensive roadmap
- Migration strategy
- Legacy platform migrations
- Streamline Salesforce migration

## Automation

- Automation with Salesforce native applications
- Automation with third-party tools, e.g. Nintex
- Workflow development

## Integration

- Integrate systems in your IT ecosystem
- Improved data accuracy
- Eliminate manual processes
- Integrate business processes

## On-Demand Services

- Dedicated Salesforce architects, developers and administrators on an as-needed basis
- 24/7 Support Portal
- Salesforce troubleshooting and issue remediation

Protiviti implemented Nintex Doc Gen and e-signature in our existing Salesforce environment to perform the contract generation, approval workflow and signature process from a single account or in bulk. This solution reduced our contract creation, review and signature process from 2-3 weeks to 1-2 days with just a few clicks.
